

w/ Roger Schell
and Steve Cooper

9/25/73
4⁰⁰ pm.

From Schell

desire to mix in security criteria modeling.

formal model / abstraction

to be interpreted in the con of Maltin's

He has done partially for the DSO / Pasqua version of
Maltin.

Wants to expand this approach to all of Maltin's.

Clearly the modeling is fairly specific to Maltin's,
it is especially to be useful to commercial appl. etc.

Information protection vs. system integrity.

↑

low models

↑

no model yet.

Would develop regular meetings to communicate modeling issues.

From Cooper

Wants to integrate more closely with end user (Air Force)

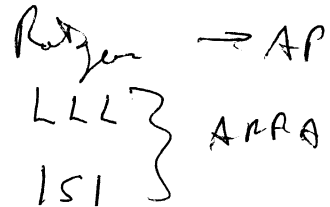

getting together to get signal stronger -

- was to
 1. tybbscyf -
 2. demomspc
 3. see if work.

- was to show close transfer from ARPA → AF → use.

three topics

- develop criteria
- contract system
- delivery system, looking for use.

- However supplied jointly by ARPA, ESD.
 managed by ESD.

- talking over archive data of Jan 1, 1974. (body positive)

Roger

Need to add to proposal interaction with ESD/MX in a meeting. Meeting rate. materials to be worked out with the technical manager.

ESD is co-sponsor.

Need valid proposal ASAP

Steve

- \$ figure was estimated \$350k/yr.]
break up -> only for certification

APPA -> \$200k ESD -> \$200k

Steve -> Roger will develop trajectory.

~~Start~~ Send Steve a CSK progress report then Dave.

Roger,

Computer time - need to specify computer time monthly.
ESD purchasing is sticky.

Underfoot
