

MULTICS PROGRAMMERS' LOG

MPL-1	CTSS Performance on trivial requests	J.H. Saltzer	2/1/69
MPL-2	Change in Page Fault Distribution upon adding Ring zero Typewriter Device Interface Module	J.H. Saltzer	3/4/69
MPL-3	Multics Performance history as recorded by flush-certification measurements	J.H. Saltzer	3/6/69
MPL-4	Page faults during Segment and Linkage Fault handling	J.H. Saltzer R.J. Feiertag	3/7/69
MPL-5	Predicted effect of New File System on Multics overall Performance	J.H. Saltzer	3/7/69
MPL-6	Multics performance history as recorded by typical user script	R.J. Feiertag	3/13/69
MPL-7	Change in Page Fault Distribution	R.J. Feiertag	3/14/69
MPL-8	Multics System Performance Certification Records	R.J. Feiertag	3/24/69
MPL-9	Multics System Performance Certification Record	R.J. Feiertag	3/12/69
MPL-10	Multics System Performance Certification Record	R.J. Feiertag	3/10/69
MPL-11	Multics System Performance Certification Record	R.J. Feiertag	3/10/69
MPL-12	Multics System Performance Certification Record	R.J. Feiertag	2/28/69
MPL-13	Multics System Performance Certification Record	R.J. Feiertag	3/12/69
MPL-14	Performance Clues to follow up	J.H. Saltzer	4/7/69
MPL-15	Core Size Experiment using 2.2.E	R.J. Feiertag	4/7/69
MPL-16	New File System Performance measurements	J.H. Saltzer A. Sekino	5/19/69
MPL-17	Certification of system 3.0.5	R.J. Feiertag	6/3/69
MPL-18	Comparison of 4 sec. and 8 sec. time burst	R.J. Feiertag	6/9/69
MPL-19	Certification of system 3.0.7	R.J. Feiertag	6/9/69
MPL-20	PDP-8 Users Simulator Results	A. Sekino	7/1/69

MPL-21	Corrections to MPL-20	A. Sekino	7/8/69
MPL-22	Results from Modified Scripts (MFTN3 and CMAD3)	A. Sekino	7/14/69
MPL-23	Results of Daily MULTICS Performance Measurements (Period: July 14 - July 18)	A. Sekino	7/25/69
MPL-24	Results of Daily MULTICS Performance Measurements (Period: July 23 - July 27)	A. Sekino	7/31/69
MPL-25	Results of Daily MULTICS Performance Measurements (Period: July 28 - August 2)	A. Sekino	8/6/69
MPL-26	Certification run with mini-shell	R.J. Feiertag	8/4/69
MPL-27	30 User Certification of 3.1.1	R.J. Feiertag	8/5/69
MPL-28	Summary of Performance Improvements from installation of mini-shell	J.H. Saltzer	8/6/69
MPL-29	Results of Daily MULTICS Performance Measurements (Period: August 5 - August 8)	A. Sekino	8/11/69
MPL-30	Summary of the 3.1.1 system performance	A. Sekino	8/11/69
MPL-31	Console Session metering statistics	R.J. Feiertag	8/15/69
MPL-32	Results of Daily Multics Performance Measurements (Period: August 13 - August 15)	A. Sekino	8/21/69
MPL-33	Corrections to MPL-25 and MPL-32	A. Sekino	9/3/69
MPL-34	Results of Daily Multics Performance Measurements (Period: August 19 - September 1) Comparison of 3.8 and 3.1.1 System Performance	A. Sekino	9/4/69
MPL-35	Results of Daily Multics Performance Measurements (Period: September 2 to September 5)	A. Sekino	9/8/69
MPL-36	Results of Daily Multics Performance Measurements (Period: September 8 through September 12) Result of CPU Quantum Experiment	A. Sekino	9/13/69
MPL-37	Results of Daily Multics Performance Measurements (Period: September 16 through September 18) and Result of Temp-wiring Experiment	A. Sekino	9/29/69
MPL-38	Results of Daily Multics Performance Measurements (Period: September 25 through September 26)	A. Sekino	10/1/69

MPL-39	Results of Daily Multics Performance Measurements (Period: September 30 through October 6) and Response time measurements	A. Sekino	10/8/69
MPL-40	System performance effects on the new PL/I compiler	F.J. Corbató	10/14/69
MPL-41	Summary of the MULTICS Performance improvement of this summer	A. Sekino	10/28/69
MPL-42	Results of Daily Multics Performance Measurements (Period: October 27 through November 3)	A. Sekino	11/20/69
MPL-43	Comparison of Compile Time, Run Time and Size of a Small Program Using BASIC, FORTRAN, and PL/I	J.H. Saltzer	11/24/69
MPL-44	Results of Daily Multics Performance Measurements Period: November 5 through November 21	A. Sekino	11/24/69
MPL-45	Results of Daily Multics Performance Measurements (Period: December 1 through December 4) and Some System Operational Statistics	A. Sekino	12/11/69
MPL-46	Results of Multics Performance Measurements and Some System Operational Statistics	A. Sekino	2/4/70
MPL-47	Implementation of a Real Time Clock on a PDP-8	A. Sekino	3/10/70
MPL-48	Results of Multics Performance Measurements	A. Sekino	3/12/70
MPL-49	Observations of 2 cpu, 384K System Performance	J.H. Saltzer	4/17/70
MPL-50	Results of Multics Performance Measurements Effect of Core Size upon System Performance	A. Sekino	5/12/70
MPL-51	Initial report of Measurement of 645 CPU with Electronic Counters	J. Ammons M. Schroeder	6/10/70
MPL-52	Analysis of 645 CPU Associative Memory Operation and Discussion of Alternative Associative Memory Designs	M. Schroeder	6/25/70
MPL-53	Overhead Measurements of System 14	A. Sekino	5/4/71
MPL-54	Measurement of Memory Cycle Interference	A. Sekino	6/16/71
MPL-55	Measurements of Memory Interference in the one-CPU system	J.H. Saltzer	6/16/71
MPL-56	Crude Estimates of Multics Performance with 645 Follow-On Hardware	F.J. Corbató	7/29/71

MULTICS PROGRAMMERS' LOG

MPL-57	Measurement of Two Processor Interferences	A Sekino	8/6/71
MPL-58	Estimated load of a "typical" APL user	J. Saltzer	12/7/71
MPL-59	Metering of Process Initialization	D. Reed	1/26/72
MPL-60	Initial benchmarking of APL	J. Saltzer	1/27/72
MPL-61	645 Hardware measurement study from Phoenix	C.T. Clingen J.H. Saltzer	3/6/72
MPL-62	Comparison of Compilation Times for PL/I and Fortran	R. A. Roach	4/19/72
MPL-63	Multics Command Loop examination	Scott S. Brown	5/22/72
MPL-64	Statistics about directry entry name hashing	R.J. Feiertag	6/6/72
MPL-65	"Yme" Fault Path in the Dartmouth System	R. Bratt	6/14/72
MPL-66	Calibration of "nothing" loop in system 17.0	J. Saltzer	6/19/72
MPL-67	Crude Estimates of Multics Follow-On Disk Subsystem Performance	L. Scheffler	7/12/72
MPL-68	The Fast Command Loop	T. Davenport	7/11/72
MPL-69	Root and UCT paging traffic	B. Greenberg D. Clark	11/17/72
MPL-70	End of MPL Series	J. Saltzer	5/10, 73
