

INTERDEPARTMENTAL

MASSACHUSETTS INSTITUTE OF TECHNOLOGY CAMBRIDGE, MASS. 02139

from the office of

August 12, 1971

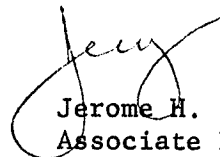

Mr. J. R. Steinberg
Room 39-427

Dear Dick:

The I.P.C. publications office has recently received a few requests for copies of the Subsystem Writer's Supplement to the Multics Programmers' Manual, and was unsure what to do. We currently do not feel that the SWS is good enough to ask anyone to pay for it; in addition our group would like to know exactly who is interested in this material. For these reasons, we have been giving copies gratis to users and groups who seem to have a need for the SWS. If anyone asks the I.P.C. publications office for a copy, please refer them to me.

Hopefully, after the SWS has been through a few updates, we can put a price on it and place it on the same footing with the MPM and the Graphics Users' Supplement.

Sincerely yours,

Jerome H. Saltzer
Associate Professor of
Electrical Engineering
