Professor J. H. Saltzer  
Room 516  
545 Technology Square  
Cambridge, Massachusetts

Dear Jerry;

I have resigned from NSA, effective October 1, 1967, to accept employment with Shell Development Company in Houston, Texas. Therefore, I would like to have my NSA address removed from the Multics documentation mailing list.

While I am not yet sure of my assignment in Houston, I would like to continue receiving MSPM documentation, if possible. If you are in agreement, my address should be changed to:

Chester Jones  
Shell Development Company  
Applied Mathematics Department  
P.O. Box 481  
Houston, Texas 77001

As soon as my assignment has been determined, I will inform you.

Thank you,

*Chester*

Mr. Chester Jones  
Shell Development Company  
Applied Mathematics Department  
P. O. Box 481  
Houston, Texas 77001

Dear Chester:

On September 29 I stopped by your old office in hopes of catching you, but Don Johnson reported that you had cleared out a day or so before. Sorry to have missed you.

Since you have been so willing to help in sorting out late problems in fault handling, we have been able to convince ourselves that you should stay on the MSPM mailing list. Our document room has been notified, and you should be receiving things at your new address by now. If not, please let me know.

Also, if your address becomes more precise, let us know.

Is there any chance that you will be involved in the Shell interest in Multics? As I am sure you know, two members of your Applied Mathematics Department are now working at Project MAC for a year.

Phase One is expected to happen more or less momentarily. All the pieces are working individually, and with other pieces, and the final exercising of the Phase One demonstration script is being fought through right now.

I hope that we can keep in contact.

Yours truly,

Jerome H. Saltzer  
Assistant Professor  
Electrical Engineering
