T. P. Skinner

(Note that the following is an Abstract, which should be replaced by a full description at a later time.)

Function of Entry:

To cause a record to be written on the "write" tape drive. Write behind maximum of 27 records is automatic.

Calling Sequence for Entry:

```
call tdsm_wtdsm_w (ioname, wksp, count, error);
```

Declaration of Arguments:

```
decl ioname char(*),      /* ignored */
      wksp ptr,           /* pointer to data to be
                          written */
      count fixed bin(17), /* number of words to be
                          written */
      error fixed bin(17); /* error code */
```

Description of Arguments:
